This image shows a blank handwriting practice sheet. It is organized into five vertical columns. Each column has a small, empty rectangular box at the top, likely for writing a letter or a symbol. Below these boxes, the page is filled with horizontal lines designed to guide letter height and placement. These lines include solid top and bottom lines, a dashed midline, and a dotted baseline. The layout is consistent across all five columns, providing a structured environment for practicing letter formation and alignment.

This is a blank medical form template for anesthesia. The form is divided into sections by solid and dashed lines. At the top, there are five rectangular boxes for patient information, connected by a dashed line. Below these is a large section for the anesthetic plan, followed by a section for patient history and physical examination. At the bottom right, there is a section for the recipient's stay, anesthetic risk category, and a signature box.
